DETAILED ACTION

1. This action is in response to the amendment filed 1/16/07.
2. Claims 1-28 remain pending and are being allowed.

Allowable Subject Matter

3. Claims 1-28 are allowed.
4. The following is an examiner's statement of reasons for allowance:

As Applicant points out in the amendment filed 1/16/07, the following claimed features are not shown or suggested by the prior art of record: The combined steps, in a method for reducing the size of code in a processing system, of:

- identifying a plurality of fork subgraph structures within a graph structure constructed for a plurality of source code instructions;
- identifying, prior to register allocation, a plurality of unifiable variables within each fork subgraph structure of said plurality of fork subgraph structures, which are not simultaneously used in said plurality of source code instructions;
- constructing a dependence graph of said plurality of source code instructions; using said dependence graph to identify at least two unifiable instructions of said plurality of source code instructions, within said plurality of fork subgraph structures, said at least two unifiable instructions containing at least one unifiable variable of said plurality of unifiable variables;

- unifying each unifiable variable within said at least two unifiable instructions to generate a corresponding unified instruction for each of the at least two unifiable instructions; and

- transferring said at least two unifiable instructions of said plurality of source code instructions from respective times of corresponding fork subgraph structures of said plurality of fork subgraph structures to store a matching unified instruction within a handle corresponding to said fork subgraph structures, if the corresponding unified instructions of said at least two unifiable instructions match.

These limitations are recited in each of independent claims, 1, 8, 15 and 22; thus, all remaining claims are also allowed.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
